Summary

Backend and AI-focused developer with experience in building scalable APIs, working with vector databases, and integrating machine learning models into production systems.

Experience

Backend Engineer - DataVerse AI

Feb 2023 - Present | Hyderabad, India

- Designed high-performance APIs using FastAPI
- Developed and managed vector databases
- Built data pipelines for AI-powered features

Machine Learning Intern - Innovate Labs

May 2022 - Jan 2023 | Remote

- Developed and integrated Natural Language Processing (NLP) models into backend systems
- Performed data preprocessing to ensure high-quality input for machine learning models
- Integrated machine learning models into backend systems for real-time inference and decision-making

Education

B.Tech - Delhi Technological University

Information Technology (2019 - 2023)

Skills

Python, FastAPI, Machine Learning, Vector Databases, Docker
