

Resume

MS Dhoni

dhoni07@gmail.com | 0321654987

Summary

Backend Developer with 2+ years of experience specializing in building scalable distributed systems and AI-integrated applications. Expert in Python (FastAPI/Django) and Node.js for developing low-latency APIs that serve Large Language Models (LLMs).

Experience

Backend Engineer - Dutch Corp

April, 2024 - April 2026 | Delhi, India

- Here is the converted text in bullet points format:

```
- ```json
- {
- "bullets": [
- "Designed and implemented scalable backend architecture to ensure optimal performance and efficiency",
- "Developed and optimized APIs to enhance system scalability and reduce latency",
- "Improved system performance through strategic performance optimization techniques"
- ]
- }
- ```
```

- However, to make it more ATS-friendly and concise, we can rephrase the bullets to focus on the action verbs and key results:

```
- ```json
- {
- "bullets": [
- "Designed and implemented scalable backend architecture for optimal performance and efficiency",
- "Developed and optimized high-performing APIs to enhance system scalability",
- "Improved system performance through strategic optimization techniques"
- ]
- }
- ```
```

Education

BTech - NY University

Computer Science (2020 - 2024)

Skills

Resume

Backend & APIs: Python (FastAPI, Flask, Django), Node.js, RESTful & GraphQL APIs, gRPC. AI Industry Specifics: Retrieval-Augmented Generation (RAG), Vector Databases (Pinecone, Weaviate, Milvus), LangChain, LLM API orchestration (OpenAI, Anthropic). Data & Databases: PostgreSQL, Redis (caching), MongoDB, Apache Kafka (streaming), SQL optimization. Cloud & DevOps: AWS (Lambda, SageMaker, EC2), Docker, Kubernetes, CI/CD pipelines (GitHub Actions).
